

Cason M. Brown, DO

Cason Brown, DO is a board-certified physiatrist who is committed to compassionate treatment of pain in his patients, to help achieve the highest quality of life. As a physiatrist, he works with his patients to accurately diagnose and effectively treat their pain, with special consideration for more conservative treatment measures such as physical therapy, medication, and steroid injections. Dr. Brown specializes in osteopathic medicine, which further emphasizes conservative approaches to medicine, and assisting the body to heal itself with osteopathic manipulative therapy when appropriate.

Dr. Brown graduated from the University of Colorado at Boulder before attending the Des Moines University College of Osteopathic Medicine in Iowa. After graduating, he continued his medical training with an internship at the Pacific Hospital of Long Beach in CA, where he was named Compassionate Intern of the Year. His residency at the University of Utah Health Sciences Center helped him gain expertise in Physical Medicine and Rehabilitation. Dr. Brown focuses on patient-centered care, in which he carefully listens to concerns, informs his patients about all aspects of their condition and treatment options, and collaborates with them to find the best path forward.

Dr. Cason Brown has been practicing in Northeastern Wisconsin since 2011. Dr. Brown now practices at the NeuroSpine Center of Wisconsin, a multispecialty private group practice providing comprehensive world-class integrated care to individuals suffering from spine injuries, brain injuries, tumors, and acute or chronic pain. In addition to physiatrists, the clinic houses surgeons and physical therapists. The providers at the NeuroSpine Center of Wisconsin work closely as a team to give each patient exceptional individualized care with the least risk and inconvenience at every step along the road to recovery.
