

The Leaders in Spine and Brain Care

Thank You for Wearing a Mask

In an effort to protect you, your loved ones, our community and the NeuroSpine team, we are requiring everyone in any of our facilities to wear an appropriate mask. If you choose not to wear a mask, we will not honor your appointment with our provider; unless there is a medical reason why you cannot wear a mask.

Here are the reasons why we are requiring you to wear a mask.

- (1) Masks of any type help prevent the wearer from infecting others by acting as a physical barrier that will decrease the spread of viruses;
- (2) Masks will protect you from others who might be sick; and
- (3) Masks serve as a reminder not to touch your face.

Wear your mask the correct way.

- (1) Clean your hands before you put the mask on and after you take the mask off.
- (2) The mask must cover your face from the bridge of your nose to your chin.
- (3) The mask should be worn with the colored side facing out.
- (4) Masks are reusable. Please fold them with the white side pinched together and place it in a paper bag. You may wear the mask until it is visibly soiled.
