

William S. Bodemer, MD

William S. Bodemer, MD is a board-certified fellowship-trained orthopedic spine surgeon who specializes in treatment of degenerative and traumatic disorders of the entire spine. He performs multiple different procedures including microdiscectomy for lumbar disc herniations, cervical and lumbar decompression and fusion utilizing anterior and lateral approaches as well as vertebroplasty and kyphoplasty for spinal fractures. Dr. Bodemer has experience with spinal cord stimulators. He also performs motion preservation procedures utilizing artificial disc replacements.

Dr. Bodemer graduated magna cum laude from Duke University with a B.S in Biology and minor in Chemistry. He completed Medical School at the University of Wisconsin in Madison where he also completed his Orthopedic Surgery residency. He then spent a year at The Texas Back Institute outside of Dallas where he completed a dedicated Spine Fellowship. He is a member of the American Academy of Orthopedic Surgeons as well as the North American Spine Society.

Dr. Bodemer practices at the NeuroSpine Center of Wisconsin, where he works with a team that shares his commitment to excellence. The NeuroSpine Center of Wisconsin is a multispecialty private group practice providing comprehensive world-class integrated care to individuals suffering from spine injuries, brain injuries, tumors, and acute or chronic pain. In addition to surgeons, the clinic houses physiatrists and physical therapists. The providers at the NeuroSpine Center of Wisconsin work closely as a team to give each patient exceptional individualized care with the least risk and inconvenience at every step along the road to recovery.
